START BOLTS BY HAND TO PREVENT CROSS THREADING

BASE ASSEMBLY

1. Position both columns with the mounting plates on the floor. Place the floor plate on the bottom of the columns and hand thread (3) Flat Head Machine Bolts through the floor plate into each column, (6) total.

2. Tighten all (6) Flat Head Machine Bolts.

TABLE ASSEMBLY

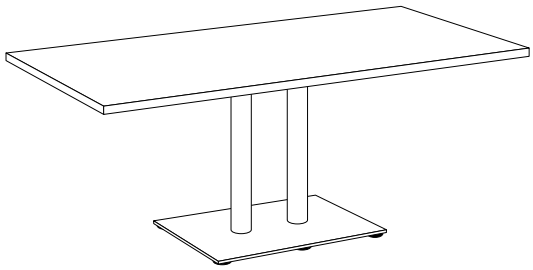

1. Lay the tabletop upside down on a piece of cardboard or a carpeted surface.

2. Position the base on the top and align the holes in both mounting plates with the pre-drilled holes in the table top. Use wood screws to attach the top. Use every hole in each mounting plate.

3. Install all (6) leveling glides onto Sienna plate.

4. With two people, holding onto the edges of the top, carefully turn the table over into the upright position.
